Missing QCR Percentage on your Snapshot Report?

Re-download your Product for the day(s) missing

Download Product Mix

- Looks like the Product Mix data did not import for that day?

- Re download the Product Mix for the day that is missing.

- The download function is located either Inventory Main or Inventory Tools Menus, you may need to download multiple days.

- Re-run the daily Stat for each day or days to update the Snapshot Report, a weekly stat does will not update the Snapshot Report.

- Once the download is completed be sure to check you QCR % box has now been updated in your Snapshot report and now shows the % figure.
